Visual Identity / Open-Source Website

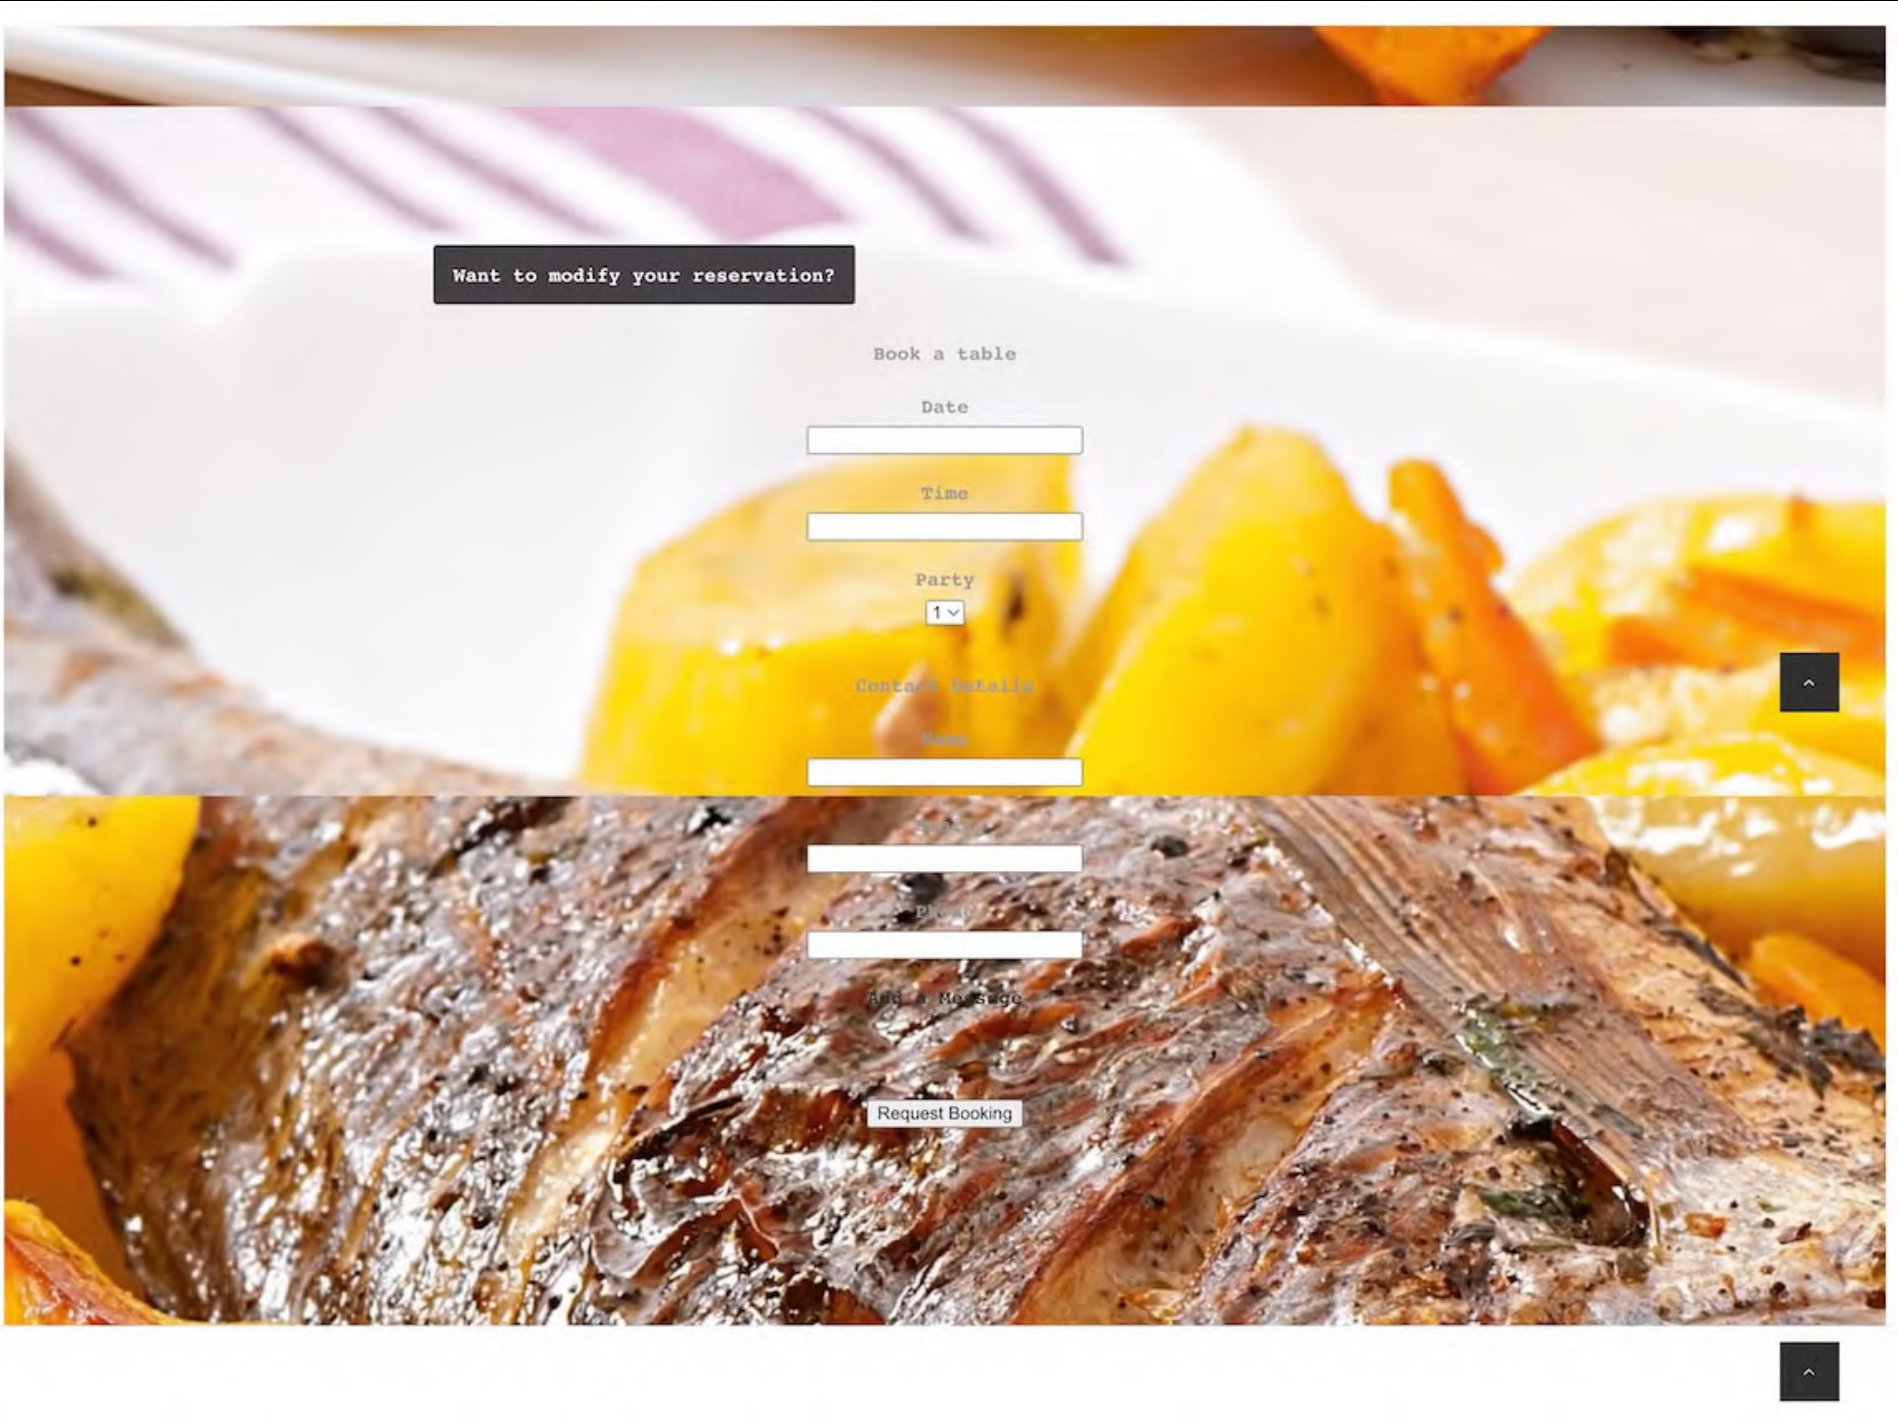

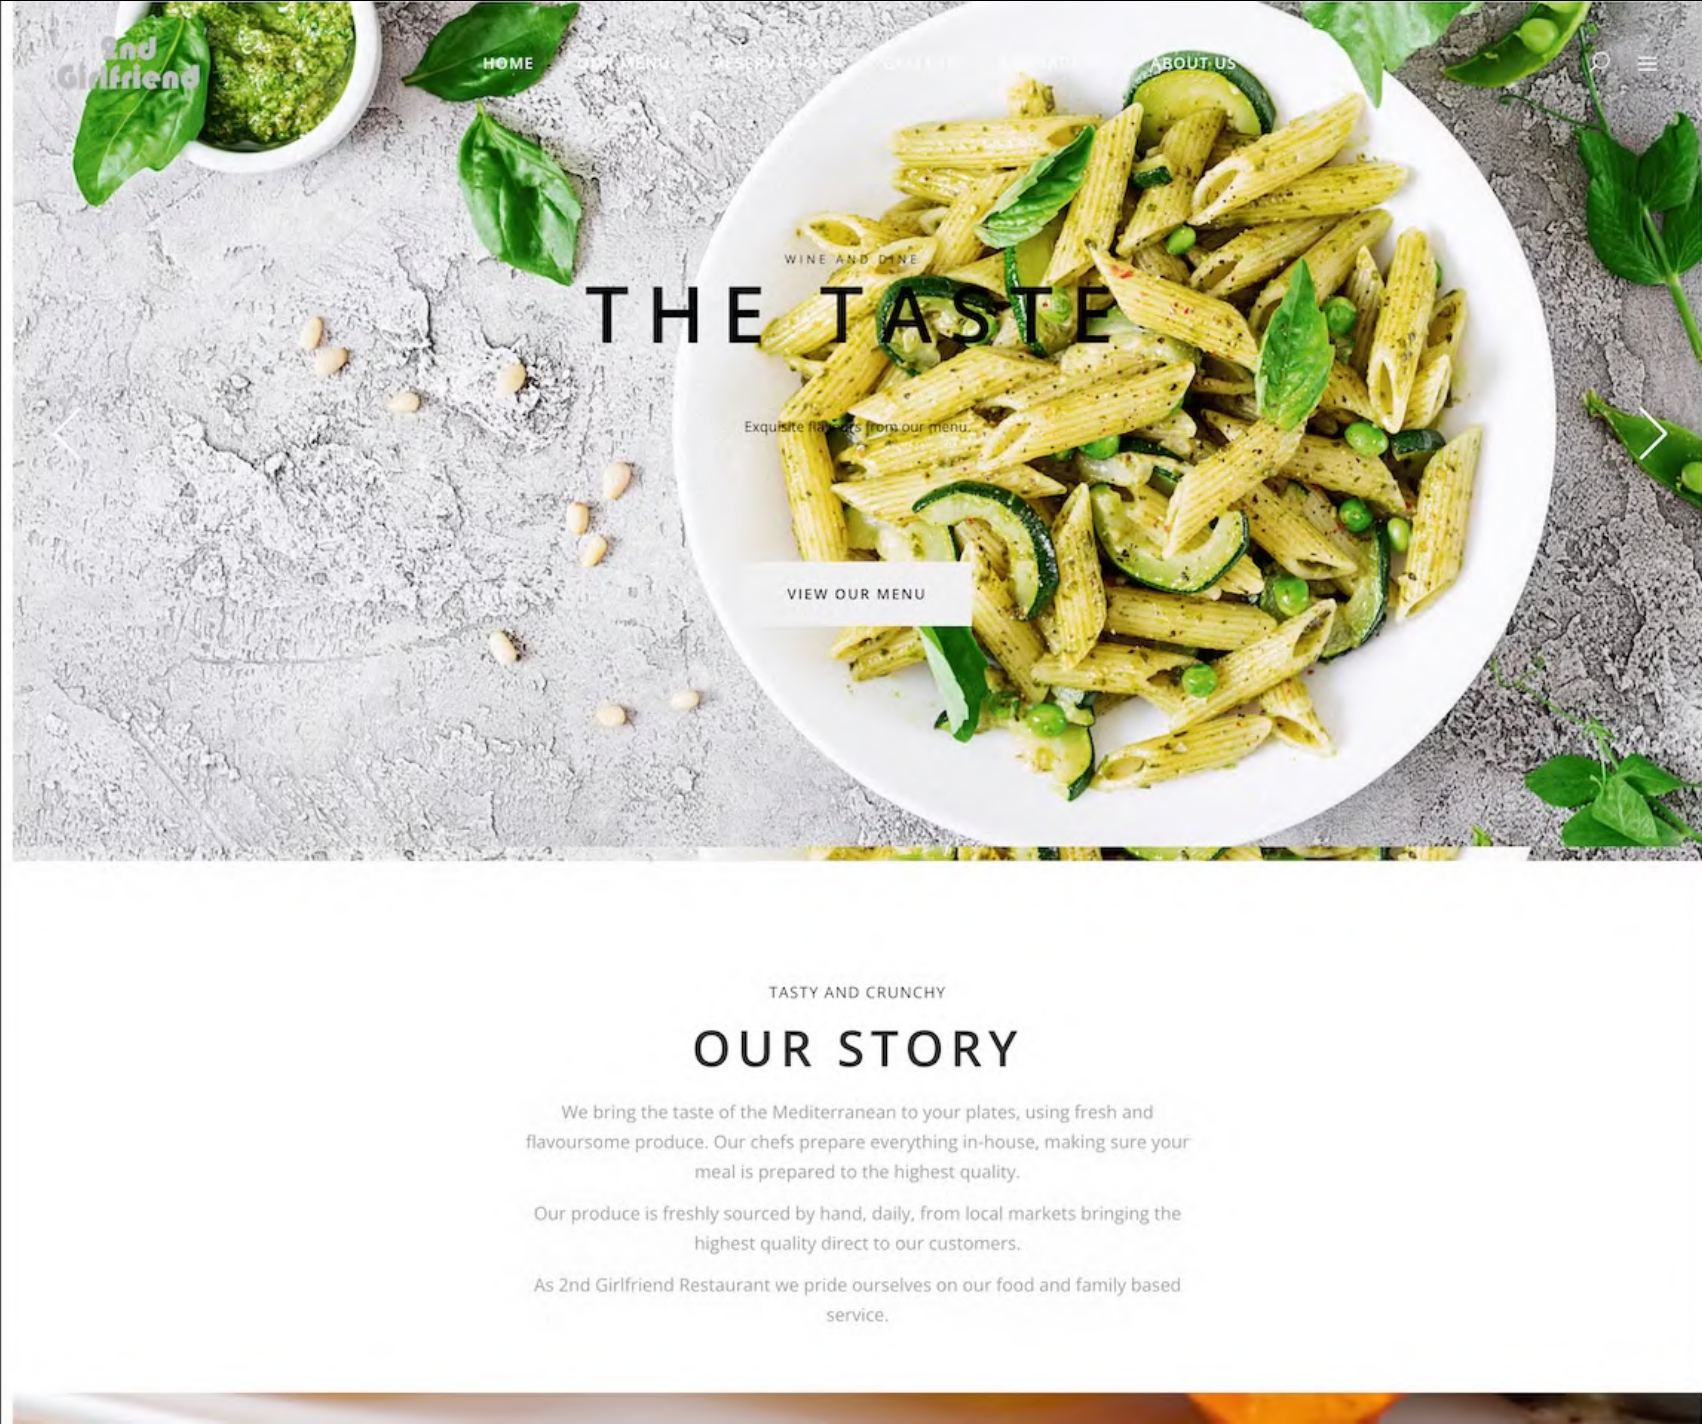

Challenge

Decentralized finance (often stylized as **DeFi**) offers financial instruments without relying on intermediaries such as brokerages, exchanges, or banks by using smart contracts on a blockchain. DeFi platforms allow people to lend or borrow funds from others, speculate on price movements on assets using derivatives, trade cryptocurrencies, insure against risks, and earn interest in savings-like accounts.^[1] DeFi uses a layered architecture and highly composable building blocks.^[2] Some applications promote high interest rates^[1] but are subject to high risk.^[3]

Solution

ox Launch Kit is the easiest way to create your own ox-based cryptoasset exchange. Use one of our beautifully-crafted UIs as is, edit one to meet your needs, or build your own, all using our professionally-engineered backend to manage, validate, and serve ox orders.

Vaporwaves.psd

Vaporwave is a music genre, a visual art style, and an Internet meme that emerged in the early 2010s. It is defined partly by its slowed-down, chopped samples of smooth jazz, elevator, R&B, and lounge music from the 1980s and 1990s. The surrounding subculture is sometimes associated with an ambiguous or satirical take on consumer capitalism and pop culture, and tends to be characterized by a nostalgic or surrealist engagement with the popular entertainment, technology and advertising of previous decades. Visually, it incorporates early Internet imagery, late 1990s web design, glitch art, anime, 3D-rendered objects, and cyberpunk tropes in its cover artwork and music videos.

Vaporwave originated as an ironic variant of chillwave, evolving from hypnagogic pop as well as similar retro-revivalist and post-Internet motifs that had become fashionable in underground digital music and art scenes of the era, such as Tumblr's seapunk.

NFT PROJECTS

02

Metaverse Avatars

In futurism and science fiction, the **metaverse** is a hypothetical iteration of the Internet as a single, universal and immersive virtual world that is facilitated by the use of virtual reality (VR) and augmented reality (AR) headsets. [2][3]

In colloquial use, a metaverse is a network of 3D virtual worlds focused on social connection.
